Version 1.0 Written by Josh Gregory Edited by Josh Fisher / Nic Mosely

Before you Start

- Intune is a secure mobile management system that allows you to access school emails, Wi-Fi, learning applications and websites on personal devices.
- Before you start, please have ready the email address and password that has been supplied to you by the school. If you do not have this information, you will not be able to successfully complete the installation. Please contact your school to obtain these details.
- These instructions are devices with version iOS 12.2. You may find that some of the screens look different to the ones provided here if you have a different version of iOS or if there are changes made to Intune.
- If the installation fails at any time, please re-open the Intune app and try again.

Please note: After the device has been onboarded and restarted, you may be asked to reset your device's password. You can attempt to reset it to the current password, however if this fails please try a different password.

You may be asked to enter your school password for a Microsoft 365/Exchange account. This is to set up your emails.

If you have any problems with installing Intune or using it afterwards, please contact your school for assistance.

Installing Intune Company Portal

Step 1

To start, connect to the internet, open the App Store and search for <u>Intune Company</u> <u>Portal</u>. Then tap **Get**.

Step 2

Once Intune has downloaded, tap Open.

Step 3 Enter your school email, and then select Next.

Tap Allow to download the Intune profile.

Step 9

Your Intune profile has now been downloaded, please tap Close.

On the message that pops up, tap **Open**.

Step 11

Press the home button to minimise this window.

Open your **settings app**, and if requested, enter a password to access the menu.

Step 13

In the settings menu, tap Profile Downloaded.

	security policies. This may take a few minutes.	

The Intune installation is complete once there is a tick next to all the items listed. On this screen please tap **Done**. It may take up to 15mins to finish installing. You can continue to use the device however it must stay connected to the internet during this time. After this has finished it's installation, the device is now ready for other school apps to be installed.

This device is now ready for school. If you require assistance with installing Intune Company Portal or an app within Intune, please contact your school for assistance.
