HIGH
SCHOOL

Program of Excellence – *The Arts Production and Performance Audition Information*

What to expect

Students may audition for more than one Program of Excellence (POE) but may only be offered a position in one excellence subject area. If a student is offered more than one position, the parents/carers and student will be contacted to discuss the program that will best suit their development.

All auditions will be reviewed by the Program of Excellence Coordinator and Head of Department - The Arts. Students must be at the school at the allocated time for the audition to be considered. Late applications and auditions will be considered case by case by the Head of Department - The Arts.

Students must present for the audition with a parent or carer and are to submit the POE - The Arts application form prior to the day of the audition via the school office or email to enrolments@albanycreekshs.eq.edu.au. Details of the audition requirements are as follows:

Dance – Tuesday 4 June, 2024 in XPAC

When students arrive, they will be allocated an audition number that will be safety pinned to their dance leotard or shirt. During the dance audition students will participate in a warm up, centre, floor and corner work in a contemporary dance style. Please note, students accepted into the program are strongly recommended to attend Dance studio classes outside of school to support dance technique in this program.

Instrumental Music – Wednesday 5 June, 2024 in Music Centre

The order of auditions for Music will be based on the student arrival time at the Music Centre. Students will be provided with a music stand and shared warm up space and will be required to have their own instrument and accessories and music for this audition. Students will be required to perform part or whole of the two contrasting pieces and may be required to respond to feedback to demonstrate their ability to respond to musical feedback as tempo, expression and articulation. All auditions will be conducted in front of the Coordinator and recorded for later viewing by instrumental instructors at the high school.

Visual Art – Thursday 6 June, 2024 in E Block Art Room

Students will be required to bring artwork or photographs/photocopies of artwork created during the past twelve months to this art workshop. At the workshop students will participate in several drawing and painting tasks using wet and dry drawing media. The POE – The Arts Coordinator will return student's work at the end of the art workshop and students will keep artwork they have created during this session.
